What's in Your Beams?

Draw two overlapping headlight beams

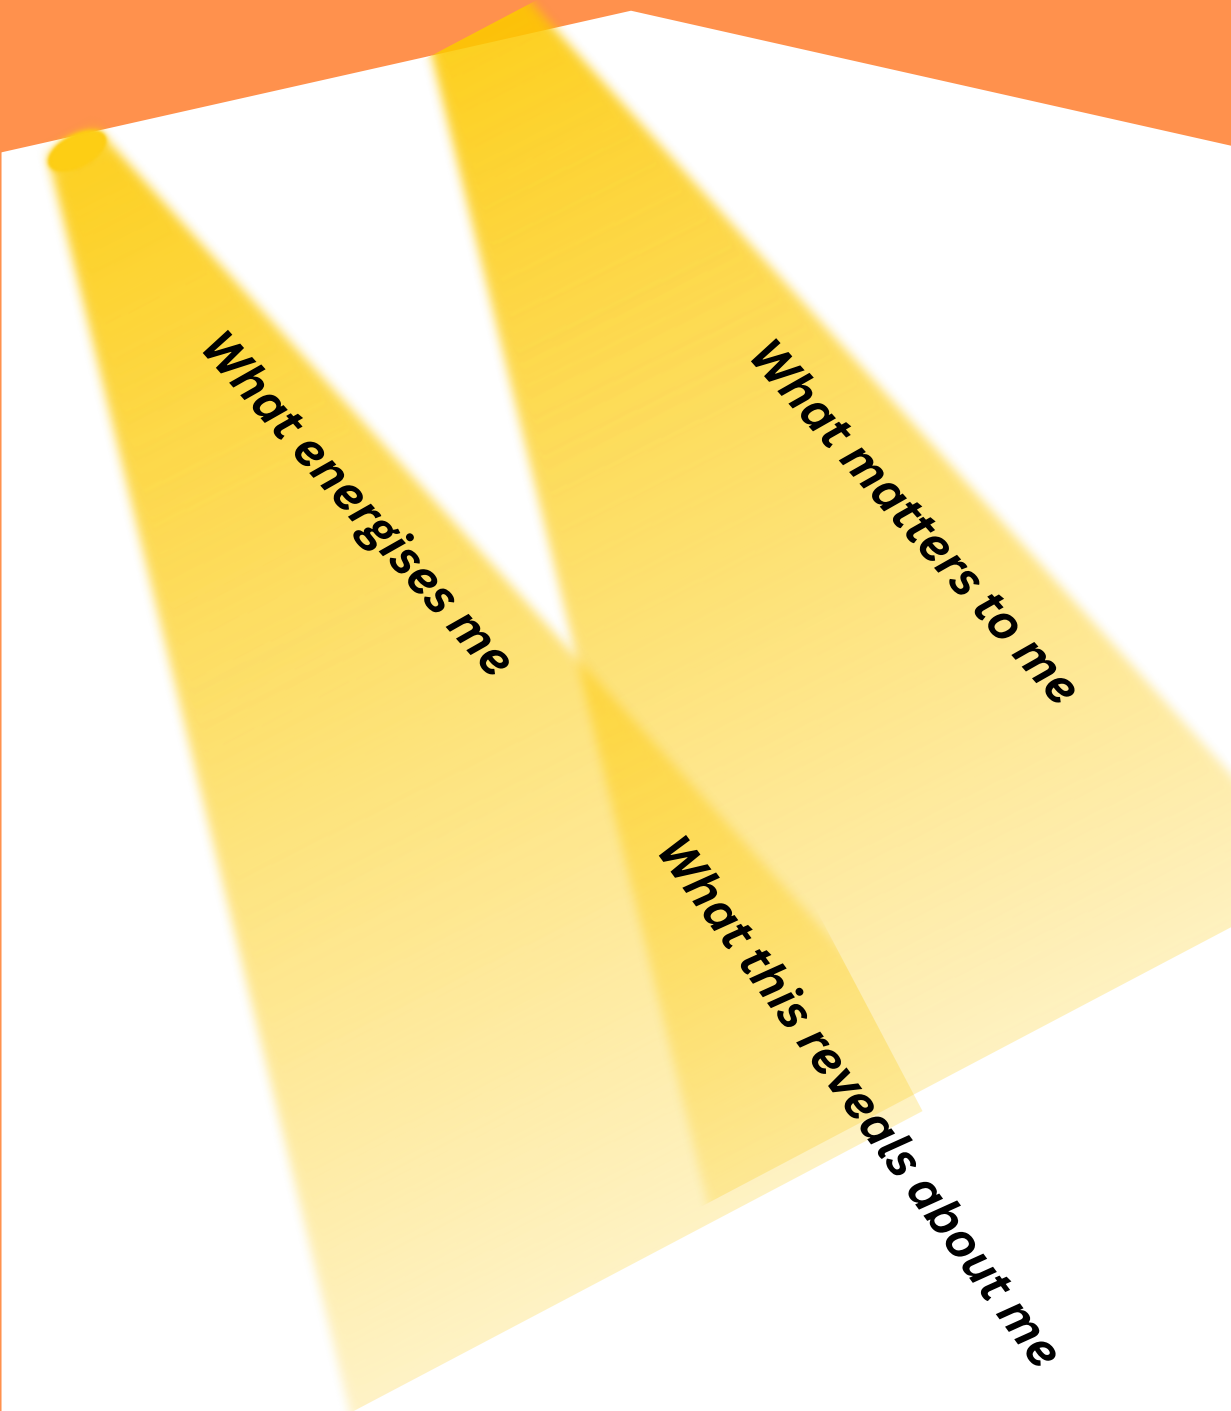

Add words, small drawings, colours or cut-out images to show:

- *One beam: What energises me*
- *The other beam: What matters to me*
- *Overlapping light: What this reveals about me*

What becomes clearer when both beams illuminate the same part of the road?

What's in Your Beams?

Three overlapping yellow beams of light originate from the top left and fan out towards the bottom right. The beams are semi-transparent, allowing the text within them to be visible. The text is written in a bold, black, sans-serif font and is rotated to follow the angle of each beam.
